💼 Experiences

2016

Internship - iOS developer , *Lundi Matin*, Montpellier, France, `www.lundimatin.fr`.
RoverCash replaces the traditional cash register, turning your tablet and smartphone into a management tool. The app offers, besides the traditional functionnalities, a directory, a catalogue, payment handling, statistics gathering, etc.
My principal objective during my internship was the internationalization (i18n) and localization (l10n) of the app.

2015

Internship - iOS developer , *KeepCore*, Montpellier, France, `www.keepcore.com`.
The *HandiCarParking* application aims to quickly locate parking spaces reserved to disabled people all over the world. It's based on the *OpenStreetMap* data. Available in several languages, for free on the App Store.

🔧 Projects

2016

Supervised learning, *Polytech*, Marseille, `github.com/gaelfoppolo/examples-learning`.
This project aims to find similarities in a set of formatted data and propose one or more characteristic(s) description(s) that carry the most information. The application produce solutions of the form: *"a red square of size 8 is on a blue or green triangle of size 5, itself next to a red circle of size 2 to 4"*.

🎓 Education

2015

Engineering school in Computer Science, *Polytech*, Marseille, France.

2013
2015

Associate's degree in Computer Science, *University Institute of Technology*, Montpellier, France.

📖 Publication

2015

Contextual Sequential Pattern Mining in Games: Rock, Paper, Scissors, Lizard, Spock, *Dumartinet, J., Foppolo, G., Forthoffer, L., Marais, P., Croitoru, M., & Rabatel, J.*, Research and Development in Intelligent Systems XXXII (pp. 375-380), Springer International Publishing.
